

Health & Safety Policy Statement

Mills CNC is committed to the Health and Safety of its employees and contractors, and to all customers, suppliers and partners etc., that may work in, and visit, its Campus facility.

The Senior Management Team ensures that the company is in full compliance with all specific and relevant Health & Safety legislation and regulations, and is responsible for creating and implementing best-practice systems and processes that ensure the health, safety and welfare of employees, customers, visitors etc.

Mills CNC Ltd will:

- *Control and eliminate, where reasonably practicable, all health and safety risks arising from work activities*
- *Consult with employees on matters affecting health and safety at work*
- *Provide and maintain safe plant and equipment*
- *Ensure safe handling and use of substances*
- *Provide information, instruction, and supervision for employees*
- *Ensure all employees are competent to do their tasks and to give them adequate training enabling them to take reasonable care for the health and safety of themselves and of other persons who may be affected by their acts or omissions at work*
- *Prevent accidents and cases of work-related ill health*
- *Maintain safe and healthy working conditions*
- *Review and revise its H & S policy as necessary and monitor its effectiveness at regular intervals*
- *Commit to continuous improvement and review of this policy*
- *Provide a framework for setting objectives*

Mills CNC encourages a professional and systematic approach in the communication of its policies, procedures and business requirements within the company including its customers, contractors, third party suppliers, and employees.
